

GlutenTox® Pro Surface

Testing surfaces for gluten contamination?
It's never been easier!

For facilities that produce both “traditional” and gluten-free items, ensuring that the manufacturing environment is free from traces of gluten is a top concern. Accordingly, **GlutenTox Pro Surface** is designed to detect gluten on surfaces and comes with everything you need to conduct **50 environmental tests**.

GlutenTox Pro Surface is:

- ◆ **Accurate:** G12 antibody detects gluten from all toxic grains; no false positives
- ◆ **Quick response:** A reliable answer in less than 11 minutes
- ◆ **Adjustable sensitivity:** Threshold can be adjusted by use of additional swab
- ◆ **Easy:** No special equipment needed, easy-to-read results including control line
- ◆ **Reliable:** Shelf-stable and long-lasting
- ◆ **Cost efficient:** competitive pricing and volume discounts available

GlutenTox Pro Surface is not appropriate for testing foods or beverages. For that, we recommend AOAC-PTM certified GlutenTox Pro.

Contact us to learn how GlutenTox Pro Surface and GlutenTox Pro can be used to keep your products – and customers – safe.

Looking for more test kits? Also available:
